Bagua Vision Board Template

A Soul-Aligned Map for Intentional Living

Welcome! This guide is designed to help you create a powerful, intentional vision board using the ancient wisdom of the Feng Shui Bagua Map.

Each section represents a key area of your life.

When arranged thoughtfully, your board becomes a balanced reflection of your whole self - a visual prayer that aligns your subconscious, your energy, and your vision.

You can use this template as a layout guide when building your board. Place your images, words, and symbols in alignment with the life areas below. Add affirmations, crystals, or colors that support each intention.

Bagua Map Layout (Use a 3x3 grid or square vision board. Each square represents one life area, listed on the next page. You can also find a printable version here, which is a great base for your board.
